Labor Bill Action Seems To Be Key To Coal Parley

Resumption Of Negotiations Not Likely Until Labor Bill Is Finally Acted On

LEWIS LEAVES FOR SPRINGFIELD, ILL.

By PHILLIPS PECK
(U. S. Staff Correspondent)

WASHINGTON, June 5.—Resumption of soft coal wage negotiations appeared almost certain today to be delayed until after final action on labor legislation.

Talks between John L. Lewis and both Northern and Southern Operators have broken off and the UMW president has left Washington for a visit with his mother in Springfield, Ill.

Government, industry and union sources indicated there is little chance of the disputants getting together again until President Truman acts on the Taft-Hartley Bill.

Expect Senate Approval

The Senate is expected to approve the compromise legislation today or tomorrow and send it to the White House. Mr. Truman then will have 10 days in which to sign or veto the measure, or let it become law without his signature.

The legislation provides machinery for dealing with national emergency strikes, such as a threatened walk-out of 400,000 soft coal miners when their contract with the government expires June 30.

All parties in the coal dispute are believed willing to let their negotiations mark time until they see whether the labor measure becomes law. They are anxious to see whether Mr. Truman will veto the bill and whether Congress will override his veto.

After final action on the legislation, Lewis and the operators will have at least three weeks in which to write a new contract covering private operation of the bituminous pits.

Pa Newc Observes

Rhododendron, peonies and bridal wreath are now adding their beauty to spring's array of flowers.

Pa Newc observes that Charles Mitolo of West Washington street R.D. 2, is building a new store at the front of his house.

Christmas cactus plant owned by Mrs. Charles Bricker, of 1231 West State street, is a holiday bloomer. It now has four blossoms and 14 buds and was last in bloom nearly a year ago over the Fourth of July.

Croton avenue extension, between South Mill street and North Jefferson street, has become a regular parking grounds. On Wednesday afternoon, one solid line of cars from Mill street to Jefferson street on the north side of the street were noted parked there.

Summer weather should have finally arrived. Pa Newc espied a small girl of seven or eight years of age gleefully prancing up East Washington street in her bare feet, Wednesday evening. The weather thus far, has just been a little too cold for bare foot antics by the children.

The heavy rains of the past weeks has washed much soil and other debris from the hills of the city to the streets below. Pa Newc notes. The city street department has been busily engaged in digging the soil deposits from the catchbasins of the city sewer system.

The smaller type cars going through the city on truck transports offer one advantage to the shipper. Six of the small cars can be hauled on the trailers, while only four ordinary size cars can be transported. Four truck loads of the small cars were going through the city Wednesday afternoon at one time.

Dear Pa Newc: In regard to the signs placed at Delaware avenue and Sheridan avenue and also at

Emergency Supplies Rushed To Flood Victims In Vermont

RUTLAND, Vt., June 5.—(INS)—Emergency supplies of water, food and clothing were rushed today to stricken Rutland with 500 of its 13,000 persons homeless in the aftermath of a flash flood.

The army, state agencies and relief organizations joined forces to bring in water and other necessary supplies. Water was carried in army tank cars.

Water was the biggest problem because of the fear of an epidemic of typhoid fever from contaminated supplies. Authorities estimated it would be at least five days before ample water supplies would be restored.

Electricity was turned on today for the first time since the rush of flood waters hit the city Tuesday night.

A check among the persons quartered in armories and public buildings disclosed no fatalities in the disaster. Six persons, originally feared drowned, have been located.

Cloudburst Floods Town In Nebraska

PLATTSBURGH, Neb., June 5.—(INS)—Plattsburgh residents worked to clear cellars and basements flooded by a cloudburst which sent a 10-inch wall of water surging through the town. The community has a population of 4,000.

No loss of life was reported but property damage was extensive. Several families living near the Missouri river evacuated their homes at the height of the downpour last night.

U. S. Highway 75, which passes through the town, was reported damaged, while the Burlington railroad stopped train traffic on the route between Omaha, Neb., and St. Joseph, Mo. Trains were detoured by way of Council Bluffs, Ia.

At Milford, Neb., a small tornado leveled several farm homes. But no deaths or injuries were reported.

Truman Denounces Coup In Hungary

(BULLETIN)

WASHINGTON, June 5.—(INS)—President Truman today denounced as an outrage the coup d'etat whereby pro-Communist elements seized power in Hungary.

The chief executive's use of the word outrage in condemning the usurpation of power in Hungary by a Soviet-sympathizing faction was the strongest language he has used toward a supposedly friendly power since entering the White House.

Lashes Out at Russia
Mr. Truman lashed out at Soviet Russia by unmistakable inference in his acid comment on the Hungarian situation.

He declared that this country does not intend to stand by idly. Asked to comment on the situation at his news conference, the chief executive said that he regarded the Hungarian situation as extremely serious and that he is looking into it right now.

He said the administration was standing by until a full investigation has been made.

The President's blunt description of the placing of a Soviet-controlled premier in power was that the Hungarian situation is an outrage.

Support Is Seen
Meanwhile, the State Department is expected to support the Hungarian ministers' refusal to recognize the communist-installed government in his homeland.

Future American action toward the new regime will come with the department's clarification of Aladar Szegedy-Maszkar, the Hungarian envoy to Washington. Szegedy-Maszkar refused to recognize his new government and defied orders to return home for consultation.

In his move the envoy was joined by eight members of his staff, leaving only three legal officials willing to carry on in their present jobs. One of the three is a communist party member. Politics of the others were not identified.

President To Act Quickly On New Tax Bill

WASHINGTON, June 5.—(INS)—President Truman today said that he will act on the tax reduction measure as soon as it reaches his desk officially.

The President did not indicate when that will be. He said the tax measure had reached the White House but had not reached his desk.

Undergo Study
All such measures undergo a period of study by interested departments of the government and Presidential aides before going to the President's desk for final action.

Yesterday the White House announced that Mr. Truman would not act on the tax measure before he leaves Friday for Kansas City. He will not return to Washington until Sunday. This indicates his action on the administration proposed tax bill will not come until next week.

Administration leaders freely predict a White House veto for the tax reduction legislation.

CAMBRIDGE, Mass., June 5.—(INS)—Secretary of State Marshall was awarded today the honorary degree of Doctor Laws at the 296th Harvard University commencement. Griswold Named To Head Mission

Selected By President Truman To Head U. S. Mission To Greece

WASHINGTON, June 5.—(INS)—President Truman today named Dwight P. Griswold, former Republican governor of Nebraska, as head of the United States Mission to Greece.

The President designated Richard P. Allen, vice chairman of the American Red Cross, as field administrator to handle funds allotted to Greece under the Greco-Turkish aid program.

Griswold, banker, publisher and World War I veteran, at present is serving as an assistant to Gen. Lucius Clay, commanding U. S. occupation forces in Europe. He is director of internal affairs and communication.

He was elected governor of Nebraska in 1940 and was twice re-elected. His home is in Lincoln, Neb.

The giant ships, making the first mass visit of B-29s to European soil, will remain at Giebelstadt for three days and then will proceed to England as "guests" of the Royal Air Force.

Gen. George C. Kenney, chief of the strategic air force, personally led the squadron's flight from Andrews field near Washington to Germany by way of Bermuda and the Azores.

Honor Dr. Eagleson For Fifty Years' Service

The full course delicious dinner was served at 6:30 o'clock on long tables attractively arranged, centered with bouquets of fresh spring flowers. Dr. W. A. Womer gave the invocation.

Dr. Eagleson Honored
The occasion held a double significance for it marked the 50th year of medical service for Dr. R. M. Eagleson of this city. During the evening's program Dr. Eagleson was paid fitting tribute, with Dr. E. F. Henderson speaking on behalf of the Medical Society.

Dr. Eagleson has reached a milestone, he said, with his half-century service to his fellowmen—a half century which proved to be the most progressive and the most brilliant in the history of medicine.

In this age Dr. Eagleson witnessed the age span of a human being rise from 42 years to over 80, a great accomplishment. For having done his work honorably and exceptionally well, a gift was presented to the

Two Tornadoes Strike In Iowa

Four Small Towns Are In Path Of Storm—Much Damage Done

WINTERSSET, Ia., June 5.—(INS)—Two tornadoes which struck within a short time of each other left heavy property damage in four small Jackson county, Ia., towns today, but no loss of life was reported.

The communities hit last night were Pileville, Patterson, Bevington and Stanville.

The twisters ripped roofs off houses, uprooted trees, smashed plate glass windows and downed power lines.

Wintersset, the county seat, was not hit by the tornadoes but was flooded by a seven-inch downpour of rain. Cellars and basements were inundated and highways damaged by the heavy rainfall.

Firemen fought to keep the town's power station in service by pumping out flood waters.

The town was without telephone service as power lines were blown down by strong winds.

French Bakers Will End Strike

PARIS, June 5.—(INS)—French bakers voted today to end their three-day strike and return to work immediately.

The strike at first forced a cut in the 250-gram daily bread ration but this was restored when supplies from the Army Quartermaster's Department were made available.

Public Works Minister Jules Moch meets today with a delegation of railway workers who have threatened a general strike if their wage demands are not granted.

A one-day strike by 1,500 rail workers yesterday stranded six thousand express passengers in Paris.

Senate Is Near Final Action On Labor Measure

Expect House-Approved Compromise Labor Bill To Be Called Up Today

HOUSE VOTES 320-79 IN FAVOR OF BILL

By FRANK B. ALLEN
(U. S. Staff Correspondent)

WASHINGTON, June 5.—The crucial labor bill today went into the last mile of its trip toward the White House—and a possible presidential veto.

Sen. Taft (R) Ohio, GOP chairman, said he would call the House-approved conference compromise up for action this afternoon—probably immediately after the Italian treaty vote at 2 p. m. (EDT).

The ramps measure outlaws the closed shop, jurisdictional strikes and secondary boycotts, and sets up an injunction procedure by which the president can delay nationwide strikes 80 days, but omits harsher features of the original House bill.

Expect Final Passage

Sens. Morse (R) Ore. and Pepper (D) Fla. said they would take the floor to speak against the conference bill, but there appeared no doubt of final passage late today or tomorrow.

Sen. Ball (R) Minn., who spearheaded the Senate fight for "tougher" legislation, was elated over the 320-to-79 victory—a four-to-one majority—the House gave the compromise.

It compared with 308 to 107, less than a three-to-one vote, on original passage of the "tougher" Hartley bill. Ball, a Senate conferee who helped draft the compromise, said:

"The House vote indicates we got out a bill that commands the support of everybody who is not a rabid defender of anything and everything that labor unions want to do. It also indicates that it is going to become law."

Truman Not To Act Speedily

At the same time, a high Capitol Hill source brushed aside rumors that President Truman might act speedily on the labor bill because of

House Passes Teacher Salary Bill, Vote 196-5

(BULLETIN)

HARRISBURG, June 5.—(INS)—The House acted today to break the deadlock on teachers salary boosting legislation by passing 196 to 5 legislation proposing higher minimum mandated salaries effective in the 1947-48 school year.

The bill, which must pass the Senate, called for the state to provide sufficient subsidies to assure teachers in second, third and fourth class school districts minimum annual wages of \$1950 plus five yearly service increments of \$150 each.

Under the bill, teachers would be eligible at the discretion of school boards—for three more promotional increases of similar sums.

Standard certificate holders would receive the minimum, under the Solenberg-Stuart bill.

Teachers having bachelor or master of arts degrees in the three districts would start at \$2,000 and \$2,200 a year respectively. Eight service increments of \$150 each and four promotional raises were proposed.

Take a day like this and a little time and a boat and a bit of a pond, some elder bushes adorning the bank, and here and there a frond of some long green fern with their graceful lines, and a pipe and a book or two, and you have the elements all at hand to make a vacation brew. Some idle hours and no one near, no telephones with their noise, just a day in a boat on a quiet lake, and a plenty of nature's joys. But the desk is piled and the day is short, 'till it's evening when I get through, but a fellow can dream on a day like this—the weather is eighty-two.

Senate Ratifies Italian Peace Treaty Today

(BULLETIN)

WASHINGTON, June 5.—(INS)—The Senate today ratified the peace treaty with Italy, amid a clamor of charges that the pact would expose the Italian people to "Hungary's fate."

Ratification followed the defeat of an attempt to postpone action on the Italian treaty until next January 25.

It was a "reluctant" vote. Many senators who favored postponement gave their support to ratification with the explanation that they did not wish to "repudiate" the recommendations of President Truman and Secretary of State Marshall before the world.

The Senate then quickly ratified without a record vote the treaties with Romania, Bulgaria and Hungary.

AWAIT SETTLEMENT

Makes Response

Dr. Eagleson responded graciously. Dr. Eagleson was born in Leesburg, January 25, 1870. He received his medical education and training at what is now the University of Pittsburgh. He started to practice medicine in California, Pa., in 1897 and came to this city July 1, 1921. Together with Mrs. Eagleson and daughter, Mary Margaret, he resides on East Washington street.

Others Mentioned

Special mention was made of the following who also passed their 50th year in medical service: Dr. Jesse Cooper, Dr. John Foster, Dr. Edward Cooper, Dr. B. E. Sankey and Dr. Elizabeth McLaughlin.

The Rotary club horse show in Wampum by now is a tradition and a grand time for those humans who delight in good horses. This year's show will be the top of them all in the estimation of those who know.

Harold Marshall is the general chairman of the show and with him are the members of the Rotary club. A crowd is more than anticipated, it is almost guaranteed for the Wampum show attracts horse lovers from points far distant. In importance and quality, the show is entirely out of proportion to the size of the district in which it is shown. To it are attracted the best horses within a radius of 100 miles and the show is compared favorably with those held in metropolitan areas.

**President Makes
Scathing Attack
On Senator Taft**

WASHINGTON, June 5.—(INS)—President Truman today leveled a scathing attack on Sen. Robert F. Taft of Ohio, charging that the Republican Senatorial leader is espousing a "boom and bust" economic philosophy for the nation.

The chief executive, apparently stung by Taft's charges that the administration is abandoning its program to keep prices down, issued a lengthy statement attacking Taft and reiterating administration policy.

Mr. Truman said he was answering Taft because the Senator's accusations will not hold water and because Taft seems to be the leader of a group who want to bring on an economic depression.

**Two Named As
Police Officers**

When city council met today in the municipal building council, upon a recommendation of Mayor John F. Haven, named two former service men to permanent positions on the city police force. They are Jack Llewellyn of 620 Raymond street and Delbert Weiss of 343 Shaw street. This makes 16 ex-servicemen the mayor has recommended and had named to the police force recently.

The two were named because of retirement on age of Detective John Young and Patrolman Frank Reynolds.

his impending trips. He said that Mr. Truman will take the full 10 days to decide, and in the meantime will have a thorough analysis made of its effects.

Meanwhile, Congressional observers looked for indications of what Mr. Truman will do. Some thought they found a veto hint in the position taken in the House vote by minority leader Sam Rayburn (D), Tex., who is regarded as "close to the president."

Rayburn voted against the conference compromise as "not a fair bill." It was recalled that in voting against the original Hartley Bill Rayburn announced a hope that the conference would produce a measure that he could support.

J. & L. Denies Steel Shipment Stoppage To Firm

WASHINGTON, June 5.—(INS)—A Jones and Laughlin Steel Corp. executive denied today that his company was cutting off steel shipments in August to a Pittsburgh manufacturer who previously testified he feared his plant would have to close.

A. J. Hazlett, vice president of J. & L. in charge of sales, told a Senate subcommittee investigating "gray market" operations in steel that the Pittsburgh co. had been promised 65 tons of sheet steel per month "indefinitely."

Frank A. Duerr, manager of the Pittsburgh firm, told the Small Business subcommittee yesterday that the 65 tons a month would end in August. He said he understood that J. & L. needed the steel for its own steel drum producing subsidiary.

Hazlett claimed that the publicity from Duerr's testimony "hurts us in our home town."

MILITARY WEDDING IN WEST POINT CHAPEL

Historic "Old Cadet Chapel" at West Point, N. Y., was the scene of a beautiful military wedding on Monday afternoon, June 2 at 3 o'clock when Miss Lucy Lee Hering, daughter of Col. and Mrs. Earl Lee Hering, of Fort Sam Houston, Texas, became the bride of First Lt. Almon LeRoy Shoaff, son of Mr. and Mrs. Howard LeRoy Shoaff, of 1010 Wilmington avenue, this city. An altar embankment of white peonies and ferns lighted by white tapers formed the setting.

Many guests witnessed the double ring ceremony, among them General and Mrs. Dwight D. Eisenhower, Chaplain C. Walther officiated. The bride, given in marriage by her father, wore an eighteenth century period style gown of white net with a hoop skirt. Her shoulder length veil fell from a headdress of gardenias and elbow-length mits of white lace complemented the puffed sleeves of her gown. She carried an heirloom prayer book of her grandmother's marked with a cascade of streamers and caught with gardenias. She wore a single strand of matched pearls and earrings, gift of the groom.

Miss Polly Summers, of St. Louis, Ill., lifelong friend of the bride, was maid of honor. She wore a pink style gown of fuchsia with an aqua veiling headdress and carried a nosegay of red roses surrounded by baby's breath.

Mr. Shoaff had his father as best man and ushers were Cadets Dan Featherston Hering, brother of the bride, J. Charles Reed, of New Castle, John Dedistrati, of New York City, Norman Salisbury, of California, Lewis Chandler, of Texas, and John Watkins, of Georgia.

After the ceremony the bride and groom left the chapel under the traditional arch of sabers and were whisked off in a waiting army car with military escort to the home of the Provost Marshall at West Point. Major and Mrs. John Stowell, who were guests, were among the high-ranking military officers and their wives.

Mrs. Stowell had as her aides Miss Jane Ball, of Fort Monroe, Va., and Miss Rose Mary Anderson, of Newark, N. J. with Mrs. James Keller in charge of the bride's train.

Mr. Shoaff and his bride left after a luncheon at the home of the bride's brother, Cadet Dan Hering. Today they arrived in New Castle and will spend the remainder of their honeymoon at the Shoaff's summer home on the Slippery Rock before going on to Texas for a short stay and then to Japan for an indefinite period.

Mrs. Shoaff is a graduate of Columbus, Ga. high school and attended Wesleyan College in Macon, Ga. During the war she was an occupational therapist at McCloskey General Hospital, Temple, Texas, and has since been a stewardess with Eastern Airlines.

Mr. Shoaff graduated from New Castle high school, attended Sullivan school in Washington, D. C. and Westminster College, where he was a member of Kappa Lambda fraternity, before entering West Point from which he graduated in 1945. Since that time he has been stationed at General Headquarters in Tokyo, Japan.

Hints On Etiquette

It is correct and pleasant to go up to the speaker or singer after a performance is over, to express your pleasure at the act, but do not presume to ask favors of the performer or take too much of his time. A public performance is first and foremost a performance and the performer needs to rest after it.

Vishinsky's Visit Is Being Watched

WASHINGTON, June 5.—Social notes from all over: Andrei Y. Vishinsky deputy foreign minister of the Union of Soviet Socialist Republics, has gone to Carlsbad in Czechoslovakia for a rest cure at that famous Spa.

This is a social note which the foreign offices of every capital are studying with great diligence. Mr. Vishinsky is not the kind of man who goes traveling for pleasure nor even for his health.

He is, in fact, one of the most able, brilliant and ruthless operators in the inner circle of the Kremlin. He paid a little visit to Rumania in 1945 and immediately there was a change in the government. Gen. Nicolai Radescu was replaced as prime minister by the woolly subservient Peter Groza. Vishinsky is said to have delivered an ultimatum to young King Michael to kick out Radescu or else. Radescu finally succeeded in escaping from the country. Groza is still puppet premier.

While Vishinsky's visit to Czechoslovakia may be wholly innocent of political motive, it is bound to be linked to what has just happened in Hungary. Czechoslovakia is a key piece on the Soviet chessboard.

Ring down the iron curtain on Hungary was comparatively easy. That country was occupied by Soviet troops. Force could be used to drive the non-Communists out of the government even though they represented a majority of the voters. It was another demonstration of the strong-arm technique in its crudest form.

Need Different Method
But the same method would not work in Czechoslovakia. To begin with, Russian troops long since evacuated that country. The government is not dependent on a Russian prop.

PROBLEMS OF WEDDING GUEST

"I have just received an invitation to a formal wedding and the reception immediately after. Please send me information on appropriate dress. To whom should the acceptance or regret be sent? When should the gift be sent? What would be an appropriate gift? What and of stationery should be used? The groom is a great family friend and we know the bride only slightly. Should we give him, in addition, a personal gift?"

Answer: You do not state the time of the wedding. If it will take place in the afternoon, wear a street-length, afternoon dress, a hat and gloves. If it will take place in the evening and will be formal, evening clothes are correct attire. The acceptance, worded as follows, should be sent to the person or persons who issued the invitation, usually the parents of the bride.

Miss Mary Jane Smith accepts with pleasure
Mr. and Mrs. John Porter's kind invitation for Saturday (the date of the wedding) at (time of wedding)

If you must send regrets, substitute for the second line "regrets that she is unable to accept." Omit the time.

Send your gift, whether or not you attend the wedding, and as soon as possible after you receive the invitation. Address it to the bride.

You may choose anything suitable for her new home. If shown, how, should be given to her home, and not a personal gift. It is not necessary, nor is it usual, to give the groom a gift. Although all gifts belong to the bride, they are usually something to be shared by both.

Use white stationery for your reply.

THE EVIL MEN DO
I know that every time I meet
A surly man in town,
In shop, cafe or on the street,
I, too, begin to frown.
Should he give me a crusty word,
All self-control I lack;
The self-same sort of speech I've heard,
I promptly give him back.

But when I'm greeted with a smile
And pleasant, friendly speech,
I try to imitate his style.
That cheerful people teach.
I'd have them find the traits in me
Their happy natures show.
Thus reputation comes to be
And good opinions grow.

So quickly I return in kind
The smile or frown I see.
I do not like some churlish mind
To make a churl of me.
And since we get as we bestow,
And give as we receive,
I'd rather, as I come and go,
Good will behind me leave.

The Parent Problem

By Garry C. Myers, Ph. D.

HELP FOR THE VERY SHY CHILD

If some children from 2 to 5 could explain they might say something like this:

Sometimes when I try
To speak to a stranger
My lips get dry,
My tongue won't move
And I feel in danger
Of never being able
To talk again.
But then,
If I can look up
Into the eyes
Of that person when
He speaks to me,
My tongue and lips
Get loose again.

Some of us oldsters don't feel comfortable on meeting a stranger or on being in the midst of a number of strangers. Many older children, even parents, write me of their discomfort on trying to converse in a group, especially with strangers present.

Perhaps you were at a social gathering recently and, after you had asked a question or made a remark, you saw smiles exchanged between two persons. Then you wondered: "What foolish thing did I say?" All evening the matter may have haunted you, even on the way home and as you went to bed. You may have awakened in the night wondering about it. In the morning it may have been the first thing to come to your mind.

Hard To Speak
How did you get that way? The trouble may have begun when you were very young and found it hard to speak in the presence of persons who smiled or laughed at your innocent remarks or blunders; or when your mother urged you to speak to one of her adult friends when you couldn't.

If your little child hesitates to speak to your friends when you wish he should, please don't urge the lyke to speak. Try to understand the paralyzing fear which besets him. Divert the friend's attention so he will not embarrass the youngster further. Just know that when this little child feels the courage to speak, feels secure, he will speak.

Also it will help your child if you make it a habit to face him squarely and look him in the eyes smilingly as you speak to him or listen to what he says. Then perhaps your close friends will do likewise. Certainly your own efforts in this direction will induce your child to use his eyes well when he talks to you. In this way we can practice the growing child to speak with his eyes as well as his tongue, helping him find more pleasure in conversation and gain in personal attractiveness.

From Me To You

By MESEBALL

Don't you mind about the triumphs,
Don't you worry after fame;
Don't you grieve about succeeding,
Let the future guard your name.
All the best in life's the simplest,
Love will last when wealth is gone;
Just be glad that you are living,
And keep cheering someone on.

Let your neighbors have the blossoms,
Let your comrades wear the crown;
Never mind the little setbacks,
Nor the blows that knock you down.
You'll be there when they're forgotten,
You'll be glad with youth and dawn,
If you just forget your troubles
And keep cheering someone on.

There's a lot of sorrow round you,
Lots of lonesomeness and tears,
Lots of heartaches and of worry
Through the shadows of the years.
And the world needs more than triumphs;
More than all the stardust we've drawn
It is hungering for the fellow
Who keeps cheering others on.

The World and the Mud Puddles

DOUBTFUL HONOR

The Russian newspaper "Pravda", one of the official Soviet mouthpieces, recently devoted a considerable amount of space to praise certain Americans as "friends of Russia" and "consistent and courageous advocates of a durable democratic peace." The list of Russian champions in the United States offers few surprises. Some of the "honored" are too obscure, so far as the mass of Americans are concerned, to deserve notice. Most of the others have long been recognized as pro-Communist. Among "Pravda's" list we find:

Joseph E. Davies, former Ambassador to Russia, who won unenviable distinction by his propaganda masterpiece, "Mission to Moscow." Henry Wallace, whose most recent efforts prove his title to "Pravda's" commendation.

Albert Einstein, refugee in America from the Nazis.

Senator Claude Pepper of Florida, who in the 1944 presidential election warned that failure to re-elect Roosevelt would be highly displeasing to Stalin.

Robert Kenny, former Attorney-General of the State of California. (He was a candidate against Governor Warren for the governorship of California at the last election.)

And last, but not least, Elliott Roosevelt.

These gentlemen, we trust, will appreciate the honor conferred upon them by the outstanding newspaper exponent of Russian Communism.

Mr. Einstein, by reason of his tragic experience at the hands of the Nazis, may be pardoned for some inclination toward Russia. Mr. Wallace, of course, needs no explanation, nor does Senator Pepper; much influence was definitely discounted in the recent Congressional elections.

Mr. Kenny is generally recognized as a radical political opportunist who picked the wrong horse.

Elliott Roosevelt may deserve a little special attention, not so much on account of his literary vapors, as because of the fact that his pro-Russian proclivities probably are a reflection of numerous higher-ups—or former higher-ups—in the New Deal administration. He has the additional inspiration—seemingly a family trait—to commercialize his outgivings in behalf of the Soviets.

To certain obliquity of viewpoint, it is possible that these "Pravda" glorified exponents of Russian Communism may be flattered rather than embarrassed by this recognition. But it remains true today as in the day when it was written: "No man can serve two masters."

Great Game Of Politics

Secretary Marshall and Sen. Vandenberg

WASHINGTON, June 5.

A STORY is appearing in current Washington dispatches to the broad general effect that because Secretary of State George Marshall lacks the winsome ways of his able and astute predecessor, Mr. James F. Byrnes, the concededly basic bipartisan nature of our foreign policy is about to bog down. It even, we are told, may become an issue between the parties in the 1948 campaign, which would be calamitous, indeed.

THE cordial relations that existed between the Secretary of State and Chairman Vandenberg of the powerful Senate Committee on Foreign Affairs when Mr. Byrnes held that office are not so cordial under General Marshall. About this allegedly unhappy situation there is a great wringing of journalistic hands and dire warnings of disaster. The main complaint is that the senators are not consulted as closely or as often as formerly; that sometimes things are done by the Secretary of State of which they are not informed in advance; that the "personal contact" is not what it was. In consequence, Senator Vandenberg is depicted by some as miffed. Others say he is really angry, which is something General Marshall is at a loss to understand and does not believe. Thus, it is asserted, the potency of our policy is being sapped through the absence of enthusiastic co-operation upon the part of the "Republican leadership" which, in foreign affairs, means Senator Vandenberg.

IF ALL this were true it would be appalling. Because, it would mean that the vitally essential united front which, for nearly two years, this country has presented to the rest of the world had unintelligently and unnecessarily broken down over trifles. It would humiliate the United States in the eyes of other countries. It would make us seem a silly nation—so silly, in fact, that it is impossible to believe in it. To give it credence at all, one has to make two entirely ridiculous assumptions—first, that General Marshall is a stupid, bungling, pompous man without a real grasp of the situation; second, that Senator Vandenberg is small, vain superstitious and addicted to bleating to his newspaper friends about his supposed slights.

OF COURSE, both of these assumptions are wholly false. It is true General Marshall does not possess the easy congeniality of Mr. Byrnes; nor has he had the latter's advantage of long, first-name-calling, senatorial association with Senator Vandenberg and Senator Connally. There is nothing stiff, standoffish, uppity or unfriendly about General Marshall—quite the reverse. But he was not brought up in the political school. He isn't the back-slapping, quick-familiarity type. He is an exceedingly able, deeply sincere, high-minded man drafted into a job the burdens of which are enormous. He fully appreciates the infinite value of bipartisan support and would no more consciously slight or slight Senator Vandenberg than he would jump off the Washington Monument.

NOR, his friends say, has he given any reason for asserting that he has. No policy has been formulated without consultation. No changes have been made without advance information. None will be. Except that he might forego more often socially, those who know the General well say he does not know what else he could do unless he "abdicated." So far as he is concerned his relations with Senator Vandenberg are as cordial as he can make them. He has for him both friendship and respect.

AS for Senator Vandenberg, it certainly is no compliment to him to suggest that because he is not consulted as often as he thinks he should be, his support of a foreign policy in which he believes would weaken. Mr. Vandenberg is not that sort of man. It is insulting to him to hint—even if it were true—that because the personal relations are not the same and he had not been informed in advance about something or other—that this would dilute his enthusiasm and might lead to our foreign policy becoming a political issue. Mr. Vandenberg is a man of ability, courage and character. His invaluable support of our foreign policy is not a matter of expediency and it was not brought about by his long and intimate friendship with Mr. Byrnes. It was a matter of conviction with him. His course has not only earned him general admiration and respect but has been of great service to his country.

THE idea that because the overburdened General Marshall has failed to consult him when he should—even if that were true—or has not known how to be cordial in the Jimmie Byrnes way—Senator Vandenberg would weaken in his support of a foreign policy to which he is deeply committed and in which he thoroughly believes, is not one sensible persons will accept. Under such circumstances, Mr. Vandenberg would feel an increased obligation not to weaken in any way. So would any other decent man. All of which makes this theory that our bipartisan foreign policy is about to be settled through the stupidity of a Secretary who is anything but stupid and the petty vanity of a senator who in a matter of such gravity is certainly above petty vanity, an unworthy one. It is a reflection upon both General Marshall and Senator Vandenberg. It is so absurd that perhaps it will do no harm, but certainly it will do no good.

One of the most monumental changes in the history of man's relationship to man was recorded today with formal announcement of Great Britain's proposal for gradual partitioning of India on the huge sub-continent's dreary road toward eventual independence.

Already sanctioned by the principal political leaders of India and assured of no opposition by Winston Churchill's Conservative Party, the intricate formula outlined by Viceroy Lord Mountbatten allows for no back-tracking.

The Indians now have had given into their own hands their own future, and it remains only to be seen what use they will make of it for their own well-being and progress, and for the future of a multiply-troubled world.

Outstanding Question
An outstanding question, of course, is whether the little people of India—the peasants, the mill-workers, the street-sweepers in the cities, the almost nameless and assuredly countless laborers in the

fields—will accept the mandate of their leaders.

In other words, do they wish entire emancipation from the British crown or might they live to regret "abolition" as so many slaves of the southern American states did in the decades that followed the Civil War.

According to competent and unbiased authorities, the vast rank and file of the Indian people will see the British "Raj" and its emissaries leave forever with little more than a tinge of regret that is based upon pleasing personal experiences of the past.

Since long before the turn of the century in the days when the phrase "Communist infiltration" had not even been put to use, the Indian people have been politically conscious of themselves.

With each passing decade and each new spin of the wheel of history, British dominance had come to be regarded by the masses as an increasing anachronism.

Improvements In Union Township Are Being Sought

Meeting Held Last Night At Union High School—Street Lighting Is One Project

Meeting that promises improvements for the community of Union township was held last night in the auditorium of Union high school by the Union Civic and Athletic association.

President Dan Radabaugh was in charge.

Purpose of the meeting was to raise funds for the building of bleachers on the football field of the school.

Bert Torchio suggested building bleachers with help of the members of the association, while a general plan was to be drawn up by T. Arwood Eckles. Through this idea the association planned to save at least two-thirds of the cost that a company would charge. Fred Vanatten was appointed to call Harrisburg to find out what state restrictions for safety would be necessary.

Action is being taken for street lighting in the township. Petitions have been circulated. The streets that have enough signers are: Cecil Avenue, Oakwood Avenue, King Avenue, Gardner's Lane, English Avenue, McClelland Avenue, Kerr Street, Youngstown Road, Atkinson Street, Knox Avenue, Boston Avenue, Grandview Avenue and West Washington Street. Four streets do not have enough signers and they are: Scotland Lane, Conkle Avenue, Miller Avenue and Grant Street.

The building of sidewalks and extension of the bus line were other items presented before the meeting.

A motion was passed for a picnic dinner with Henry Grizzle as the chairman. The date and location will be announced. Among other motions passed were the purchasing of license plate emblems to represent members of the organization.

Mrs. Dan Radabaugh was appointed to be the correspondence secretary.

A social gathering followed the business meeting with coffee and pie served as refreshments.

BAR RUNWAY USE
NEW YORK, June 5.—(INS)—The La Guardia Field runway from which a United Air Lines 40-4 lurching to disaster last Thursday night was barred today to four-engine craft.

are Communists who have key positions. A Communist, Klement Gottwald, is premier. Communists hold the posts of Interior, Information, Labor and Social Welfare, and Finance among others. A Communist is in reality the power in the foreign office, although the post of Foreign Minister is held by a non-Communist, Jan Masaryk, son of Czechoslovakia's founder.

At the last election, the Communist party got the largest percentage of votes—38 percent. All indications, however, are that this tide has receded. It is believed that another election might show quite a different result.

The Russians would find it embarrassing to have a country so close to the Soviet orbit turn against Communism. They could be counted on to do everything in their power to prevent it. Consequently the extreme interest in Vishinsky's pilgrimage to the healing waters of Carlsbad.

With brains and money in sufficient quantity, a Communist coup in Czechoslovakia could be organized. There, of course, it would be essential to use the native Communist party in the Trojan horse as contrasted to the strong-arm technique.

How To Overthrow

Step No. 1—Discovery of a wicked Fascist plot conveniently focused in the Slovakian democratic party, which is anti-Communist. Step No. 2—Declaration by the premier of a state of emergency. Step No. 3—Communists replacing non-Communists in important posts not already held, and continuation of the government in power by force of police and soldiery in a virtual dictatorship.

That would not be easy to engineer. The Czechoslovaks are a valiant and a proud people. They fiercely resisted the Nazi oppression even after their betrayal. The stakes, however, are high. If the Politburo in the Kremlin has decided that this is the next move in the contest with the west, then Vishinsky can be counted on to move heaven and earth to bring it about.

It is significant that the hotels and the baths at Carlsbad, once frequented by the rich to cure their gout, are reserved for high-ranking Russians. To Carlsbad nowadays come Soviet military men who because of their valor of their injuries—often both—are granted this privilege. Carlsbad is not far from Joachimsthal where mining of extensive uranium deposits is said to be going forward under Russian direction.

What happened in Hungary is

bound to make a deep impression in western Europe. Censorship and propaganda cannot conceal the brutality of the method used to destroy a duly elected government. The west will certainly watch with bated breath the course of developments in neighboring Czechoslovakia. And the Czechs can hope and pray that Mr. Vishinsky will go quietly to Moscow after a successful rest cure.

This does not take into consideration, of course, the many hundreds of thousands of "back-country" Indians who are cut off from the world and care little whether British authorities or anyone else rules their country so long as they glean their needed sustenance from an "unyielding" earth.

With British abdication of responsibilities in India beyond these of aid and advice in event of emergency or need, the loss to the average Indian probably will be felt most in the hinterland.

the fields, the British born white overseer had become assimilated with the native population to an extent never touched by the social and governing classes that held forth at Bombay and New Delhi and in the fashionable "Hill Stations."

He will be replaced by a native, perhaps less skilled in administrative ability, and his departure will be regretted.

But this is one instalment of the price that India must pay for her deepest desire—freedom, unfettered and untrammelled.

LOOKING AT LIFE

(Continued from Page Four)

I was tired all the time and nothing was so detrimental to my general condition as work.

My doctor put me on a diet. He told me to work as little as I could and to rest as much as possible.

No good. And do you know what the darn fool did? He operated on me and took out my ulcer.

I have felt fine every since, but just imagine what I could have done if he had made my ulcer worse instead of taking it out.

I might be a millionaire by this time. It might have driven me to better work and, instead of having to write a column for a living, I might be a bloated capitalist (I was bloated when I had my ulcer).

So the next time your doctor tells you you have an ulcer, don't let him fool around with it. Put an ad in the paper reading "Job wanted. Good work guaranteed. Have a bad ulcer."

Then go to bed and drink lots of milk. (Copyright, 1947, King Features Syndicate, Inc.)

State College Professor Is Being Hunted

STATE COLLEGE, Pa., June 5.—(INS)—Dr. Vernon R. Haber, 59-year-old zoology professor at Pennsylvania State college who disappeared Tuesday while on his way to class, was believed to be in the vicinity of Kittanning today on the basis of a clue furnished by a truck driver.

The truck driver, Charles Bright, of State College, told searchers he saw a man resembling the professor's description walking along a road on the outskirts of Kittanning, more than 100 miles west of the college.

He remembered the man, he said, because he was "acting peculiar". With Bright's report, the search for the missing educator switched to Kittanning from State College where bloodhounds and low-flying airplanes together with posses of Boy Scouts and other volunteers scoured the area.

State police said Haber had been seen on the outskirts of the college campus walking toward College Farms, Mrs. Julia Haber, the professor's wife, was on the verge of collapse and could shed no light on any reason her husband might disappear.

Dr. Haber, a 1914 graduate of Ohio State university, and a Cornell university Ph. D. came to State College 25 years ago and is widely known as an authority on economic agriculture.

One solo cross country hop was completed by Lloyd Moore, R. D. 8, who made a recent flight.

Subversive Groups Control Measure Passes In House

HARRISBURG, June 5.—(INS)—Proposed legislative controls on communists and other subversive groups today carried house approval.

A bill to ban persons connected with "undesirable alien" groups from holding public office or official posts in influential organizations was sent to the senate for concurrence. Three negative votes were cast.

Sponsored by Rep. Peter F. Bender (R) Allegheny, the measure would subject persons affiliated with or adding subversive agencies to fines ranging from \$500 to \$5000, 10-year prison sentences or both.

Amended earlier to strike out specific reference to communists, the legislation defined as undesirable and disloyal persons who were supporters of foreign governments which advocated fundamental changes in the United States government through illegal and violent means.

Duly registered foreign agents would not be covered by the definition.

Bender's plea for speedy action brought lusty applause from the house and a sarcastic request from House Minority Leader Hiram G. Andrews for an affirmative Democratic vote.

Patterson Says GOP Fund Slash To Cripple AAF

Proposed Cut In Funds For
Purchase Of Planes Seen
As Staggering Blow

By RAYMOND WILCOVE
(U. S. Staff Correspondent)

WASHINGTON, June 5.—Secretary of War Patterson charged Wednesday that a Republican economy cut in funds for the purchase of new army airplanes "would be extremely detrimental to an already impoverished air force."

Patterson's views were made known as the House prepared to vote on the War Department appropriation bill, carrying \$5,520,982,423 in funds for the 1948 fiscal year beginning July 1, a cut of \$475,809,077, or 8 percent below the \$5,996,791,500 requested by the administration.

Included in the cuts was one for \$40 million for the procurement of new planes, on which Rep. Mahon (D) Tex., an appropriations committee member, announced the Democrats would concentrate in an effort to restore it to the bill.

Patterson advised Rep. Cannon (D) Mo., ranking minority member of the appropriations committee, that the proposed slash in air force funds would force the War Department to reduce the number of "latest models of bomber and fighter aircraft" it had planned to purchase.

Patterson asserted that except for \$5 1/2 million worth of liaison air-

craft, the department's request for \$400 million for the purchase of new aircraft was designed to cover almost wholly "the procurement of the most modern bombers and jet fighters in quantities barely sufficient to sustain a relatively small efficient modern air force."

Patterson added: "Any dollar reduction would necessarily have to be taken practically entirely in the procurement of the latest models of bombers and fighter aircraft. This would be extremely detrimental to an already impoverished air force, one that is already short of the essential modern equipment required to maintain an air force of the quality and efficiency which is critically essential in the event of an emergency."

Rep. Engel (R) Mich., chairman of the army appropriations subcommittee, pointed out that his group had earmarked \$3,372,330,000 for the Army Air Forces. He maintained that this was sufficient to allow the production of 838 planes from 1948 funds, while from previous budgets money is available for the procurement of 1,369 planes.

The overall cuts in the bill made by the House Appropriations Committee would force the War Department to dismiss about 75,000 civilian employees and 20,500 officers.

WOULD BE A LAW

KANE, Pa., June 5.—(INS)—There oughta be a law—or maybe it is an old, primitive law of nature.

Anyway, old Dad Panther at the McCleery Wolf Park near Kane today had destroyed an entire litter of the panther cubs—and nothing can be done about it.

Dr. E. H. McCleery said attendants at the park unaware of the nearness of the impending blessed events, allowed the female panther in the male's cage at feeding time.

Shortly after, she gave birth to the quintuplets, and the male killed them.

Relief Roll Cost 169 Millions For Two-Year Period

HARRISBURG, June 4.—With passage on May 29 of the administration bill appropriating funds to the Department of Public Assistance, assurance was given that aid would continue to Pennsylvania's

needy people in the biennium commencing June 1.

Although more than one million dollars remained from the 1945-47 appropriation, this money cannot be used after May 31, except as an allocation under the new appropriation act.

Total public assistance expenditures during the 1946-47 biennium amounted to \$169,500,000. Of this amount, \$54,700,000 represented Federal contributions toward the cost of Old-Age Assistance and Aid to Dependent Children; the remaining \$114,800,000 came from state funds.

WOMAN IS NAMED

GREENSBURG, Pa., June 5.—(INS)—Three judges today had named Mrs. Jean E. White of North Huntingdon township, as Westmoreland county commissioner, succeeding her husband, the late Harry White who died last May.

Selection of Mrs. White for the vacancy ended a scramble among 10 other Westmoreland county judges—J. Hilary Keenan, Richard D. Laird and George H. McWherter—was unanimous.

It is asked of the employer to analyze his job openings with an eye to helping the impaired. For example, does the job require lifting, carrying, walking, etc.? Disabled workers when placed on the right job are efficient employees. Studies have proved that their output and loyalty are as high if not higher than unimpaired workers.

Mr. Fry, vice dean of the School of Agriculture of the Pennsylvania State College, says farmers and Extension co-ordinated their efforts, in the farm and in the farm home, and that by "working together," they solved farm problems and contributed to a sounder agriculture. New methods for saving time and labor were demonstrated, and emergency farm labor was recruited.

Today, new attitude has developed—consideration of the worker on the basis of his ability and respect for his disability. Fundamentally, proper job placement means the right man for the right job. It is based on the premise that no single job requires all the faculties of the normal person. Many positions do not require the worker to jump, to crawl, to take a fall.

Therefore a worker who cannot do these things will be able to perform his duties as well as the person who excels in these activities. Unnecessary physical requirements should not be placed on jobs.

Community Chest Board Presented Current Problems

Agencies Of City Lay Vital Problems Before Board At Wednesday Session

Long deferred maintenance of buildings and higher operating costs were cited by several agency representatives at the Community Chest board meeting last night as serious problems for the agencies' continued successful operation. The meeting was held in The Castleton hotel.

The spring meeting of the board was held in conformance with the policy adopted by the executive committee of three board meetings per year—one in the spring, one in advance of the annual campaign, and one following the campaign. The executive committee of the Chest meets monthly for the transaction of routine business.

The treasurer's report indicated satisfactory collection of pledges in the current year's campaign, and all agencies will be paid budgeted amounts in full for the year. Delinquencies for previous years have been reduced to a very low amount.

President P. G. Dingley reviewed the actions of the executive committee at meetings held since the December meeting of the board. The audit of the 1945-46 Community Chest year was received and placed on file.

Main Discussion

The meeting was devoted principally to a discussion of the problems of various agencies included in the Chest. Several of these agencies are, according to their representatives present at the meeting, faced with considerable expense due to the necessary replacement of building equipment which is beyond the possibility of repair. It was also brought out that several agencies, due to inadequate funds, have found it impossible to do the job in New Castle and Lawrence county that is normally performed by the agencies in other communities.

The board also ratified the appointment by the executive committee of George F. Winter Jr. as campaign chairman for the 1947-48 campaign.

It was announced that the executive committee of the board, assisted by the auditor, would constitute the budget committee for the ensuing year. Budget forms have been sent to all agencies for return to the executive committee not later than July 1.

A motion was passed by the board providing for the preparation of a memorial resolution by the secretary expressing the board's appreciation of the services of the late Emmanuel Shenkan, for many years a member of the board.

Present at the board meeting last night were the following: John B. Shaw, Mrs. John E. Elliott, John P. Boyles, Mrs. James B. Hurst, T. L. Paden, Harry L. Elder, Anthony Carbon, James K. Love, Mrs. Grace P. Johnson, Ralph Audino, Richard E. Rentz, Mrs. Roy A. Long, Paul G. Dingley, H. B. Richards, Albert Hoyland, Joel S. McKee, Philip Weiner.

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, loss of sleep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder. Don't wait! Ne-Ca-Hi Class Of June '47 Dinner-Dance At Cathedral

Spring blossomed forth in splendor and profusion in the dining room of the Scottish Rite Cathedral Wednesday evening when the June '47 graduates of New Castle High school gathered for their class dinner dance. Dainty hand-painted flowers of numerous kinds and in all the colors of the season, and butterflies against a background of delicately executed ferns decorated the long dinner tables.

Dinner was served to 440 members of the class and guests at 6:30 o'clock.

Harvey Bush, Jr., acted as toastmaster and introduced those who spoke briefly during the dinner program. They included Dr. Frank L. Burton, Clare B. Book, William Nickum, class president, and James

Preston, who officiated at the presentation of gifts.

Miss Lois Kerr, class supervisor, who wore an orchid, also a gift from the class, received a lovely gift, and to the class officers, William Nickum, Phil Richards, Marita Bantz and Albert Tate, went remembrances of the occasion. Each responded with a brief speech of thanks. To each of its session room teachers the class gave a corsage or boutonniere.

Cheers arose when Miss Marie Olson, motor of the annual, announced that the books were ready for distribution and an intermission between dinner and dancing was given over to handing out the year books and exchanges of autographs. Dancing from 9 to midnight to the music of an out-of-town orchestra brought the highly successful post-graduation event to a close.

PRE-NUPTIAL EVENT FOR BRIDE-ELECT

In the home of Mrs. James F. Geddis, 339 Frank avenue, a group of friends were entertained on a recent evening at a pre-nuptial shower in honor of Miss Betty Heckathorne.

"Betty and Paul—June 18th" was the inscription on a large cake decorated in pink and white that centered the table when lunch was served. Mrs. Warren Wynder, Mrs. Hazel Harriger, and Miss Lois Harriger aided the hostess.

The bride-elect, daughter of Mr. and Mrs. George Heckathorne, of 708 Sampson street, will become the bride of Paul Harriger, son of Mr. and Mrs. Roy Harriger, of Enon Valley, R. D. 2, at an open church ceremony in Westfield Presbyterian church on Wednesday, June 13, at 7:30 p.m.

EMALINE REBEKAHS HAVE INITIATION

Jan Van Goyen (1596-1656) was a Dutch landscape painter, born at Leyden in 1596. He studied under various Dutch masters, then spent a year in France and practiced in Leyden. In 1631 he sold his house there and moved to the Hague where he became a citizen in 1634 and became dean of the Painter's guild in 1640. His sales of pictures and speculations proved unfortunate, and he died insolvent in 1656.

Religious Reforms In Judah

Highlights On The Sunday School Lesson

Josiah's good reign.

"Give me understanding, and I shall keep Thy law."—Psalm 119:34.

By NEWMAN CAMPBELL

(The International Uniform Lesson on the above topic for June 8 is II Kings 22:1-23:30, the Memory Verse being Psalm 119:34. "Give me understanding, and I shall keep Thy law.")

"Josiah was eight years old when he began to reign; and he reigned thirty and one years in Jerusalem. And he did what was right in the eyes of Jehovah, and walked in all the way of David his father, and turned not aside to the right hand or to the left."

In our last lesson we read of Hezekiah's reign and how, on the whole, he brought the children of Israel back to the worship of Jehovah. After his death, Manasseh, his son, reigned in his stead, and "he did that which was evil in the sight of the Lord," and undid the work of his father, setting up idols and worshipping them, and all his people with him. When he died, after a long reign of 55 years, his son, Amon, reigned, but only reigned two years when his servants revolted and killed him in his own house, and Josiah reigned his stead.

In the 18th year of Josiah's reign he sent Shaphan, the scribe, to the ruined and neglected house of the Lord to instruct the high priest, Hilkiah, to make a complete account of the money that had been voluntarily given by the people of Judah for repairing the temple, and have it expended on the many tasks that so sorely needed doing, for carpenters and masons.

Book of the Law Found
Hilkiah, the high priest, told Shaphan that he had found the book of the law in the house of the Lord, and gave it to him to read. Shaphan took it to the king and read it to him. When he heard the words in the book the king rent his clothes. He commanded Hilkiah, the priest; Ahikam, son of Shaphan; Achbor, the son of Michaiah; Shaphan the scribe, and the king's servant, Asaiah, to "go and enquire of the Lord for me, and for the people and for all Judah, concerning the words of this book that is found: for great is the wrath of the Lord that is kindled against us, because our fathers have not hearkened unto the words of this book, to do according unto all that which is written concerning us."

So the men went to Huldah, the prophetess, wife of Shallum, the son of Tikvah, the son of Harhas, keeper of the wardrobe, in Jerusalem, and they communed with her. Huldah told them that the Lord said He would bring "evil unto this place, and upon the inhabitants thereof, even all the words of the book which the king of Judah hath read."

However, the Lord had heard how Josiah had rent his clothes and humbled himself before the Lord and wept before Him, so He would not visit the evil upon the people during Josiah's lifetime. The men took the word to the king.

The king then went up in the house of the Lord "and all the men of Judah and all the inhabitants of Jerusalem with him, and the priests and the prophets, and all the people, both great and small; and he read in their ears all the words of the book of the covenant which was found in the house of the Lord."

The king stood by a pillar and made a covenant before the Lord that he would walk after Him and keep His commandments and testimonies and statutes with all his heart and soul, and perform the words of the covenant that were written in the book. "And all the people stood to the covenant."

Then the king ordered all the images and idols and the places

where they had been set up and worshipped destroyed, and it was done, the altars were thrown down, the priests killed and everything destroyed. Then King Josiah "commanded all the people, saying, Keep the passover unto the Lord your God, as it is written in the book of the covenant."

"Surely there was not holden such a passover from the days of the judges that judged Israel, nor in the days of the kings of Israel, nor of the kings of Judah." This also was in the 18th year of King Josiah's reign.

It was said of Josiah, "And like unto him was there no king before him, that turned to the Lord with all his heart, and with all his soul, and with all his might, according to all the law of Moses; neither after him arose there any like him."

Josiah's death, 31 years after he began to reign, was a tragedy for which we have no explanation. A famous Egyptian king, Pharaoh-Nechoh, attacked the king of Assyria, and for some reason or other, Josiah decided to fight him. In the ensuing battle at Megiddo (or Armageddon) he was struck by an arrow and died. His servants put him in another chariot and brought his body to Jerusalem, where he was buried in his own sepulchre. (Distributed by King Feature Syndicate, Inc.)

Letter Bombs Are Detected

Three More Are Discovered
As London Police Institute Wide Search

LONDON, June 5.—(INS)—Three additional letter bombs were detected today in a widespread police net covering all British airfields, seaports and post offices.

The explosive envelopes, including one addressed to "a prominent person," were turned over to Scotland Yard.

They were believed part of the original batch from a Jewish underground movement working in Italy.

Eight Others
At least eight others, including several addressed to cabinet members, previously had been delivered. None exploded.

Scotland Yard and post office officials carried out a thorough check of all correspondence to cabinet members and high ranking officials.

Every letter was examined, measured, weighed and X-rayed before being sent on to the officials.

Special police squads check all the mails entering Britain at airfields and seaports as part of the widespread effort to trap additional bombs.

Although the death letters which have arrived in Britain thus far all originated in Italy it was believed the unknown terrorists now may send them from other parts of the world.

Secretary Bevin Is Optimistic

LONDON, June 5.—(INS)—British Foreign Secretary Bevin expressed optimism today over the economic future of the world. He said:

"If European production develops satisfactorily and the immediate food shortage is overcome, I see 1947, 1948 and 1949 making tremendous strides toward restoring equilibrium between Europe and the western hemisphere.

"Looking ahead, I feel full of optimism."

SCOTT'S SCRAP BOOK

By R. J. SCOTT

Little is known about Edmond Hoyle, the man referred to in the phrase "according to Hoyle." He was born in England in 1672 and spent most of his life in London writing on games and giving lessons in card playing, especially whist. He published a book in which he systematized the laws and rules of whist, his name becoming proverbial as an authority on games and playing a game "according to Hoyle" came to mean playing it fair and according to the recognized rules.

Salary Increases For Office Holders Are In Limelight

HARRISBURG, June 5.—(INS)—Salary increases for public office holders were once more in the legislative limelight today as the Senate studied proposed boosts for legislators and judges.

The Senate Judiciary General committee released a bill to boost judges' salaries 33 and a third per cent but it was understood the proposed increase would be pruned to 10 or 15 per cent.

Sen. John M. Walker (R) Allegheny, who sponsored the measure, said the legislation was reported

without amendments to save time as the General Assembly dashed toward possible final adjournment June 14. The bill has the endorsement of the state bar association.

The upper chamber simultaneously received legislation that would add \$2400 "expense" accounts to lawmakers' present \$3000 biennial salaries. Monthly expense accounts would be retroactive to June 1 of this year.

Lawmakers' expenses presently are limited to 10 cents a mile travel allowances. The House-approved version retained flat \$500 payments for special sessions lasting under 30 days and \$750 for extraordinary meetings running over a month.

The legislature's pay bill was sponsored by Republican Rep. G. Edgar Kline, Schuylkill, and W. Henry Elder, Lycoming, who claimed the present compensation rates

John James Passias Wins School Honor

In the account of the New Castle high school commencement exercises in Wednesday's News it was said that James Passias was awarded the Bosch & Laumb medal for excellence in science. The name should have been John James Passias.

The earliest reference to the cigarette occurs in literature in 1842 and 1843, where it is stated that cigarettes were smoked in France and Italy at that time.

A delicious cabbage dish favored by the French combines the shredded leaves with apples, bacon, brown sugar and spices. The French cooks add a little vinegar for tartness.

Comparatively few human beings can name their own ancestors through the fourth generation, but the pedigrees of thoroughbred horses sometimes go back eight or nine.

Report Communists Capture Positions In Mukden Area

PEIPING, June 5.—(INS)—Chinese government advices from Manchuria admitted today that Communist forces have captured several key positions north and northeast of the vital city of Mukden. It was acknowledged that advancing Communist troops appeared to be making a serious attempt to capture the south Manchurian city and the great coal mining center of Pushun, 25 miles east of Mukden. Other reports said the Nationalist situation at Mukden was so desperate that Chinese officials and their families were leaving the city in large numbers.

The United States Congress authorized the coining of three-cent pieces in 1865.

Hopes To Reach 100, Claim Title Of Oldest Newsboy

PITTSBURGH, June 5.—(INS)—John P. (Pops) Lowman isn't quite sure he's Pittsburgh's oldest newsboy, so he wants to live another 13 years to reach the century mark and then claim the title. Pops recently celebrated his 87th birthday—by selling papers in front of a savings bank on Pittsburgh's North Side where he has handed out the news daily for more than 20 years.

It probably was the first natal celebration in that time for Pops, who lost a leg in 1875. Employees of the bank bought him a cake—with one candle. "The cake, with a lot of birthday cards, was set up on a ledge in the bank until Pops was ready to take it."

When he was ready to leave his news stand and accepted the cake, he said: "I'm not certain I'm Pittsburgh's oldest newspaper boy, but when I'm 100 I will be."

Urge 'Be Kind To Taxpayers Week'

TRENTON, N. J., June 5.—(INS)—The New Jersey Taxpayers Association today pointed out that 61 "national weeks" have been set aside for observance during 1947 but urged citizens to take part in "be kind to taxpayers week" which will be celebrated next week.

During May, according to the association, first aid week, golf week, raisin week, clean-up week, foot health week and poetry week were observed, but up to this time the taxpayers were overlooked.

"The government's bite out of the taxpayers' income is getting too big," declared the association. "Washington bureaucracy must be cudgeled into an economy program. That's why one of the big objectives of 'be kind to taxpayers week' is to get taxpayers to invest 15 minutes of their time to write to their congressmen and senators and demand a half in wartime spending by the federal government."

NEW WESTINGHOUSE AVIATION TURBINE MANAGER IS NAMED

PHILADELPHIA, June 5.—(INS)—Appointment of William B. Anderson as manager of the aviation gas turbine division of the Westinghouse Electric corporation has been announced today by D. W. R. Morgan, general manager of the company's South Philadelphia plant.

Anderson joined the division here now manages a year ago, as manager of design engineering, and last February was made assistant manager of engineering.

"We believe that the gas turbine form of aircraft powerplant—

whether it delivers its power as a high-speed jet or directly through gears to a conventional propeller—will rapidly become the standard of the aircraft industry not only for high-performance military air-

craft, but also for heavy-duty, high-speed, and long-range commercial planes," Anderson said.

"For that reason, over the past five years more than \$10,000,000 has been invested in engineering and

production facilities for such engines here in Philadelphia. This includes a \$3,500,000 research laboratory for aircraft gas turbines, the most advanced such center in the world."

William Billings (1746-1800), Boston tanner, wrote choral hymns and anthems, "The New England Psalm Singer," and others which were published between 1770 and 1794, and have recently been revived.

Two Arabs Are Shot To Death

JERUSALEM, June 5.—(INS)—Two Arabs were shot to death today as bombs cut the Iraq Petroleum Company's pipeline and destroyed two buildings at the Athlit Railway station.

The Arabs were killed by an unidentified gunman in the Jewish township of Rehovoth in the orange belt south of Tel Aviv.

The pipe line was cut in two places southeast of Haifa and the oil gushed unchecked for more than two hours. It failed to ignite, however.

The Athlit station master's house and the waiting room were destroyed.

There were no casualties because authorities were forewarned. Before the explosion a British constable saw a man behaving suspiciously and questioned him. The man told him the station was mined.

The constable grappled with the suspect but he escaped. The buildings were immediately cleared of occupants.

Still Selecting Jury In Yacht Murder Case

SANTA ANA, Calif., June 5.—(INS)—The Overell yacht blast murder trial will enter its third week next Monday with a jury still to be selected. The court was in recess today to secure a new panel of prospective jurors.

The first panel was exhausted as opposing counsel continued their exhaustive questioning of veniremen.

Six men and five women were seated in the jury box at the end of yesterday's session and both sides indicated the 11 were acceptable.

On trial in the sensational case are Beulah Louise Overell, 18, and her sweetheart, George "Bud" Goldman, 21.

The couple is accused of beating to death the girl's wealthy parents, Mr. and Mrs. Walter E. Overell, and then dynamiting their yacht in Newport harbor last March 15.

Y.M.C.A. Aiming To Teach Younger Boys How To Swim

Learn-To-Swim' Classes Starting June 9, Part Of National Program

If you are between the ages of 8 and 16 and do not know how to swim, now is the time to learn. Again the local Y.M.C.A. is taking part in the national "Y" campaign to teach non-swimmers the fundamentals of the water sport. Each year the association provides the time, facilities and instructors for any boy in New Castle, who cannot swim, to receive, free of charge, expert instruction. The campaign is projected by the National Physical Education committee and its aquatic committee. The dates set are June 9 to June 21 to mark a national development of the association's leadership in national swimming and water front safety activities.

Many Can't Swim
In March, 1946, the Gallup poll showed that only 63 per cent of the total respondents answered "yes"

to the question "Can you swim?". The "Y" is trying to make that other 37 per cent answer affirmatively to the question by offering free lessons at 477 Y.M.C.A.'s throughout the nation to 406,167 persons.

Any boy in Lawrence county is eligible to take the lessons. It is not necessary to be a member of the Y.M.C.A. to enroll. Sign up today. You will better equip yourself to enjoy outdoor activities this summer and you will help to reduce the alarming total of deaths that occur each year in the water.

EX-JUSTICE SUCCEUMS
SHARON, Pa., June 5.—(INS)—Silas Criswell, 95-year-old former justice of the peace at Mercer, died last night following a long sickness. He was a former school teacher and businessman in Venango County before moving to Mercer in 1923.

The Georgians, of Russia, a Caucasian people have lived in their present habitat from 4000 to 5000 years, and the human remains found in the caves of Kutais suggest a longer period for man's existence in this region.

A man drafted for military service in the Civil War had the legal right to hire another to serve in his place.

Concede Italian Peace Treaty To Get Ratification

Sen. Bridges Concedes Efforts To Block Ratification Will Lose In Senate

By WILLIAM THEIS (U.S. Staff Correspondent)

WASHINGTON, June 5.—Sen. Bridges (R) N. H. conceded today that efforts to block ratification of the disputed Italian peace treaty will be defeated when the senate votes at 2 p. m. EDT.

Bridges touched off a round-robin GOP attack on the treaty, during which Sen. Wherry (R) Neb. brought out that a three-month-old official Italian appeal for treaty revision—addressed to Senate President Vandenberg (R) Mich.—had not been called to the senate's attention.

The formal communication from the Italian constituent assembly, received early in March, had not been made a part of the senate foreign relations committee record on the Italian treaty.

Vandenberg, chairman of the committee, hastily explained to the senate that he had entered it into the senate's own record several

hours before Wherry arose to speak. He said he did this when an inquiry from Sen. Eastland (D) Miss. revealed that the letter was not in the committee record.

The letter, signed by Signor Terracini, president of the Italian assembly, asked the United States to aid in bringing about "a revision of the conditions of the peace."

The Wherry-Vandenberg colloquy was a surprise development in closing debate on the Italian and Balkan treaties. Leaders on both sides predicted that a motion of Sen. Fulbright (D) Ark. to postpone ratification of the Italian treaty until January 25 would be rejected.

Hoodlums Enter Pittsburgh Strike

Freight Haulers Strike In Fourth Day; Mayor Calls Another Meeting

PITTSBURGH, June 5.—(INS)—Hoodlums entered the picture today as a strike of 2500 freight haulers, in its fourth day, virtually tied up shipments of food to neighborhood stores in the Pittsburgh area.

Police reported that Fred Birch of Pittsburgh and Herman Wolf, of Allison Park, non-union truckers, were dragged from their truck on a Pittsburgh bridge and severely beaten by a gang of 12 men. Both required hospital treatment.

Police said this first report of violence in the strike indicated the attackers, in two cars, bracketed the truck on the bridge to force it to stop.

Scott Marshall, secretary-treasurer of Local 249, AFL Teamsters, the striking union, denied union responsibility for the attacks. Mayor David L. Lawrence called another meeting of the union and the Western Pennsylvania Motor Carriers Association for today in an effort to bring the two factions together. Thus far in the stalemate, the union has demanded a 35-cent hourly wage increase and the association has stood firm on a 15-cent offer.

Seeking Missing Aeroplane Parts

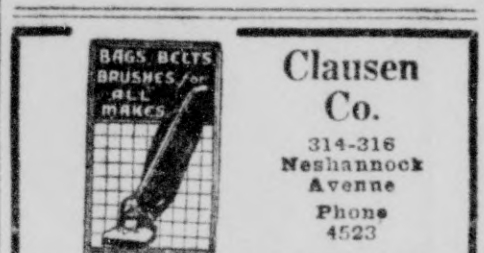

United States investigators covering the accident of Eastern Airlines Aircraft DC 4 at Bainbridge, Md., May 30, are hampered in their effort to discover the cause of the accident, because of the removal of hundreds of parts of the wreckage by souvenir hunters, according to a teletype message from Maryland to Pennsylvania State Police. They request that anyone who removed a souvenir, return it immediately to aid the inquiry.

The right elevator hinge and the spar are among the parts being sought.

The safety of the public is involved, and anyone who removed any part of the plane can aid the inquiry by delivering it to, or telephoning they have it to the Maryland State Police or Civil Aeronautics board representatives at the Bainbridge Naval Training Station, Telephone Port Deposit 2141.

Kiwanians Hear Wachtman Speak

Executive Director Of Greater New Castle Association Explains Long Term Plans

SOME OF NEEDS OF CITY SHOWN

New Castle Kiwanis club members heard J. C. Wachtman, executive director of the Greater New Castle Association, explain the long term plans of the association for New Castle, and outline some of the things which need developing here.

Mr. Wachtman traced the period of the city's greatest development, during the steel and tin plate era, and of the collapse of that branch of industry, to be replaced by diversified interests. During the period between 1890 and 1920, he pointed out, the city virtually quadrupled in size.

Then in the late 20's and 30's, the steel and tin plate plants here became obsolete and these interests moved to other fields, forcing the community to develop new interests.

When the New Castle Chamber of Commerce disbanded, it was replaced by the Greater New Castle Association, which began a long-term program of industrial planning, which is now bearing fruit in locating diversified industries here.

Great Housing Need
The retail sales volume of the city is around \$35,000,000, he pointed out, where it should be \$50,000,000. In other words, merchants here are losing around \$15,000,000 worth of business.

This is due to congestion in the downtown district, lack of parking facilities on narrow streets. The wholesale trade from here also goes elsewhere, he stated, only 50 per cent of the volume of business which should be done here, coming to local interests.

It should be the center of the purchasing area of 100,000 people. There are between two and three thousand people who commute to other places to work.

Around 51 per cent of the city's residents do not own their own

homes, and the landlords are not getting the break they should because rents were frozen here at depression rates. When housing became scarce, homes were bid up in price beyond their real value, he stated.

Although New Castle annexed Mahoningtown many years ago and made it the seventh ward of the city, it is still shown on many railroad maps as Mahoningtown, and the post office is so listed.

The Greater New Castle Association, he pointed out in conclusion, is composed of members who contribute from \$10 to \$1,000 per year for the development of the city. It has 17 divisions representing every branch of business, and a board of directors of 40 persons, who operate on the town meeting plan for the best interests of New Castle.

Plan First Steps For Implementing Indian Independence

NEW DELHI, June 5.—(INS)—Viceroy Viscount Mountbatten and the leaders of India's three major political groups met today to decide on the first steps in implementing the plan for Indian independence. It was understood that the viceroy simultaneously instructed the governors of the various provinces concerned to undertake preliminary moves toward partition.

The Hindu, Moslem and Sikh representatives reportedly agreed on the formation of a small central committee to arrange for the transfer of power. This is expected to take place in two months.

The leaders were the same with whom the viceroy had negotiated acceptance of the British cabinet plan proposing dominion status for the projected Indian states.

Around Hollywood

By JOHN TODD
International News Service Staff Correspondent

HOLLYWOOD, June 5.—(INS)—For a very good reason Lauren Bacall has been resting since she returned last Sunday from her Mexican location sojourn with hubby Humphrey Bogart. It turns out that for the last two weeks they were below the border. Betty was chief cook for the 25 American members of the cast and crew of "Treasure of the Sierra Madre."

Bogey explained: "The food where we were was very monotonous, believe me. We stood it for a month and then Betty decided we would have to do something about it."

"We arranged to have some roast beef, steaks and other things sent

in and Betty took over the kitchen for us.

"You should have seen her out there running things, and bossing everybody around."

It might be added that when Betty is home she doesn't have to cook.

Roy Rogers is just back from Kernville, Cal., with a lesson learned on exploring old mine shafts. Roy was up there for almost two weeks on location for Republic's "On An Old Spanish Trail."

After work one evening Roy and two friends went up to the Green mountains, seven miles away, to

take a look at the mine, one of which hadn't been worked in almost 40 years.

As Roy looked into the narrow shaft, he saw a beam of light some distance from the entrance so he figured it to be safe.

"I had gone a short distance when my movements caused a slide behind me, completely blocking the passage. I crawled to where the light was and found a 50-foot shaft straight up to the surface."

"There was no way I could climb it so I called to my pals and let them to dig back to town and get some more men with a strong rope to pull me out."

"There were all kinds of rumors

in town as to what had happened to me. One of my friends heard I had fallen down a 200-foot shaft and been badly injured. He even ordered an ambulance sent from Bakersfield."

"Actually, I was in no danger. A couple of pack rats kept me company during the hour and forty-five minutes I was down there."

"I did have one disturbing thought. Suppose the two men who went for help had met with an accident and been killed. No one would ever have known where I was."

The world's largest cocoa exchange is in New York. It's the largest cocoa market and generally takes the lead in setting international market prices.

Young People From Italy And Greece Learn English Here

Lincoln-Garfield Teachers Use Interpreter To Teach Studies To Newly Arrived Youths

Teachers at Lincoln-Garfield school on the South Side of the city, have had an especially interesting time the past school year, in their effort to teach English and other subjects to some newly arrived Greek and Italian students in the city.

A group of seven Greek youths and two Italian lads ranging in ages from 14 to 20 years, have been attending English and other classes of the school in their effort to become better American citizens. The Greek children came to the city in October from their native land, while the Italian children came in March.

Rino Chiaverini of Hamilton street, aged 15, the oldest of the two Italian lads, with glowing red hair, is learning English quite rapidly under the tutelage of Miss Lillian Sarver, English teacher. He introduced his younger brother, Tony, who is a wee lad of seven, and is picking up English and American customs rapidly.

When the teachers get stuck in their effort to convey some phrase of English to the foreign students, they call on pretty Miss Joan Gianguilio, who speaks Italian and English well and serves as interpreter for the teachers. With Miss Gianguilio's assistance, a reporter queried the Italian lads on how they like the United States.

A talk with the Greek students proved very enlightening. Black haired, bright eyed Catherine Kalathas, served as spokesman for the children and young people from Greece. Miss Kalathas, who has quickly learned American ways, enjoys most of the food that is offered. In fact, she told a reporter when she came here, she consumed so much food that she was forced to go on a diet.

Other of the young people from Greece interviewed were James Steverson, and his brother Andrew, Eugene Costakis and Tazafra Costakis, sisters. Miss Eugenia has been engaged in teaching Greek at the Greek Orthodox church on Reynolds street. The two latter girls were born in America, but when babies, were taken to Greece. They are glad that they are back to America.

Given Four-Year Sentence For Death Of His Daughter

PITTSBURGH, June 5.—(INS)—An aged Pittsburgh man, who admitted he attempted to shoot his wife but instead killed his daughter, today began serving a sentence of four to eight years in Western penitentiary on a voluntary manslaughter charge.

Salvatore Vitale, 72, was sentenced by Judge Frank P. Patterson late yesterday for the death of his daughter, Philomena, 31, last March 21.

Judge Patterson, after hearing Vitale's plea of guilty and then listening to testimony in the case, fixed the degree of the crime at voluntary manslaughter, instead of murder.

Shriners Bringing Circus To New Castle

Performance Scheduled For Four Days Beginning June 25 At Taggart Stadium

W. W. "Fibber" McGee, president of Lawrence Caravan No. 15, announced that the famous Polack Bros Shrine circus had been engaged to play under the local Shriners sponsorship for four days starting June 25.

The circus will be held at Taggart stadium on special platforms and mats which will prevent damage to the grounds. This circus has played for Shrine temples in many of the large cities of the United States and Canada, among which are Louisville, Ky., Cincinnati, Chicago, Indianapolis, Los Angeles, San Francisco and Oakland, Calif.

The circus consists of 25 feature center ring attractions with over 100 performers including the famous Whitbeck motion picture elephants lately seen in the M-G-M picture "Till the Clouds Roll By". The proceeds from the circus will go to the Margaret Henry Home, the city recreation fund and Shrine activities. Special arrangements are being made to take all orphan and underprivileged children to see the circus free as guests of local Shriners and businessmen.

At a special Shrine meeting W. Clayton Bryan of Bryan Motor Sales was appointed general chairman of the circus. Mayor John Haven vice-chairman and Paul Conner of Ellwood as secretary. Additional committee appointments will be announced later.

WASHINGTON, June 5.—(INS)—Rep Hartley (R) N. J., declared Wednesday that if President Truman vetoes the labor bill it will "prove conclusively that the C.I.O. is again the major power at the White House".

Three Major League Stars Sustain Injuries Wednesday

Reiser-Kell Wakefield Put On Sidelines

Tigers Lose Two Men, Brooklyn One As Result Of Hard Playing

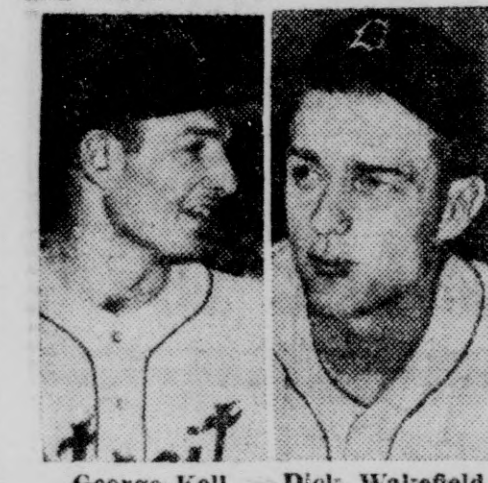

DODGERS LAMBAST PIRATES AGAIN

By LOU GARAVANTE
(International News Service Sports Writer)
NEW YORK, June 5.—Fate lent its mischievous influence to the major league pennant races yesterday, and today, two of the top contenders in both circuits are without the services of key operators.

Pete Reiser, Detroit Tigers slugger, was hurt in the first game with the Yankees. Kell sustained a cut knee and a severed artery on his right hand, and Wakefield wrenched his left ankle in a force play tangle at second base.

Tigers-Yanks Split
Both these men, however, were on hand long enough to spark an early 5 to 0 Tiger lead and witness the inevitable halting of Joe DiMaggio's sixteen game hitting streak. Detroit won the first game 6 to 2, and stretched their lead to three full games.

George Kell, Detroit Tigers, and Dick Wakefield, Brooklyn Dodgers.

But the loss of the two stars was felt immediately in the second fray. Detroit was humiliated under an 18 hit barrage, including three homers, and bowed 17 to 8.

County Teams Waging First Division Fight

AIKEN OF WAYNES TAMES SAINTS, 9-7

CHEWTON, June 5.—Aiken of the Wayne A. C. hurled three-hit ball here last night but his team just nosed out the St. Lucy's club, 9-7. The Wayne hurler was a little generous in issuing free tickets to keep the score low but he had a fine bag of tricks in the pinches.

The Wayne wrapped up the game in the first frame when they scored seven times, shelling Spegolia from the hill. Crawford finished the game. Badger, Wayne first-sacker, sparked the team with a three-hit batting performance and stole two bases. Manager Newton walked a four-master to help his cause.

HILLSVILLE EASY WINNER

Hillsville, June 5.—Bill Zarlingo's Hillsville club moved into the first division for the first time this season as they walloped Castewood last night, 14-6. The Hillers are now tied with Bessemer for fourth place in the standing.

The up-and-coming Hillsville outfit battered Castewood pitcher "Bud" Henderson for 13 blows including a grand-slam home run by Joe Pepe, Hiller chucker, with three mates riding the sacks. Other round-trippers were smashed by Rich, Grist, and Mico of the victors, while Cree poled out one for the Casties. It was the season's greatest exhibition of fence busting.

Incidentally, Pepe was the winning pitcher when the smoke had cleared away, having twirled a fine six-hit effort.

Batteries: Hillsville—Pepe and Retone. Castewood—Henderson and Cree.

Lockleys And Eagles Winners

Lockley's continued their impressive play in the American Legion Junior League play by scoring a 12-1 victory over the Sons of Italy last evening at Lehigh field, while the Eagles team won from Ecclesian Club in a swiftest 15-8.

Errors enabled the West Side team to score three runs, however, and Croton emerged victorious by a 4-3 score. Eppinger and Pia were the heavy hitters. Pia and Orlando formed the battery for Croton, with Murphy and Hetrick for West Side.

On Memorial Day, Croton A. C. won from the Sons of Italy by a 10-9 score, behind the heavy hitting of Cook, Germani, and Pia. Pia relieved Germani in the sixth and held the Sons of Italy in check. Germani, Pia, and Orlando formed the battery for Croton, and Sandulla and Moe for Sons of Italy.

Another good game for tonight will be at West Pittsburgh with Len Gilbert and his "power hitting" Tigers as the opponents.

HERE AND THERE IN SPORTS' LAND

LEO HOUCK, who turned out 51 collegiate champions in 25 years as Penn State boxing coach, has yet to recommend the professional ring to any of his proteges. "Only a few of my boys have gone into professional fighting," Leo recalls, "and they made up their minds without my help." It would be a mistake, however, to assume that the former middleweight puncher frowns on a professional boxing career. "Some college boys—the ones with real talent—could go into the professional ring and make good," Leo says, "but unless they're extra good, I advise them to stay out and pursue the career for which they prepared in college."

The Lancaster, Pa., native pointed out that the average college boxer has no professional ambitions, but adopts the sport only because he likes to box, and would like to compete for his college. Of the long line of collegians who have developed into champions under Houck, only Allie Wolff, Steve Hamas, and Billy Soose went into the professional ring and make good. Leo says, "but unless they're extra good, I advise them to stay out and pursue the career for which they prepared in college."

Two boxers, one a pro' and the other who only recently turned pro', tasted the pangs of defeat in Pittsburgh bouts. Marion Klingsmith of Washington, dropped Larry Huff of Pittsburgh, four times to win easily in a middleweight bout and Frankie Muche of Niles lost to Richie Callura of Pittsburgh, by a technical knockout in three rounds at 133. Huff decisioned Russell Baxter here. Much fought several amateur bouts in The Arena. . . . Sammy Secreet and Charlie Zivic will headline next week's show at Pittsburgh. . . . Tudor Minstrel is an even-money favorite to take the English Derby, Saturday. . . . Max Lanier, ace hurler, who leaped from the St. Louis Cards to the Mexican circuit for a reported \$35,000, is said to be available for semi-pro teams at \$400 a month. . . . Cleveland Indians have sold to the New York Yankees, Ted Spokowski, 22, rookie outfielder, for the \$10,000 waiver price. . . . Pan-American took the one-mile pacing event when the Grand Circuit opened at Maywood park. . . . Tony Segza, California, Pa., high school ace, has been receiving the attention of major league scouts. . . . Pitcher Jack Salveson, Portland, Ore., club is air-minded. He pilots his own plane.

Pirates Headed For California

General Manager Roy
Hamey Says "Pittsburgh
Pirates Will Train In
California"

By JIMMY JORDAN
(International News Service Staff Writer)
PITTSBURGH, June 5.—This, the Florida Chamber of Commerce won't like.

That august body probably won't like it so much that thunderous repercussions will echo from Biscayne Bay across Lake Okeechobee and out into Tampa harbor.

But General Manager H. Roy Hamey of the Pittsburgh Pirates, doesn't care how much thunder rumbles in Florida, or how much tub-thumping results in California.

Going Hollywood
The fact is, the Pirates are "going Hollywood".

One year of spring training in Florida was more than sufficient. Two-inch "dews" and 50-mile zephyrs notwithstanding, the Bucs are returning to the Golden State for 1948—the state where they've trained 20 times in the past 25 years.

Said Hamey in announcing the return to the west:

"Our Miami Beach training camp would have been fine but for three things."

"First, hotel prices apparently made a balloon ascension by the time we got there. The accommodations weren't too good, either."

"Second, the weather was worse than we'd expect even in California."

"And third, the playing field, by no great stretch of the imagination, might as well have been called Pebble Beach."

So they'll be at the home of the Hollywood club of the Pacific Coast league next spring for conditioning.

Plenty Of Opposition

Except for the past spring in Florida, one year at San Antonio and three wartime years at Muncie, Ind., the Bucs have been in California annually the past quarter of a century.

Hamey pointed out that in addition to Pacific Coast league teams, there will be five major league teams in the Far West next spring for exhibition games. The Chicago Cubs will be on Catalina Island, the Chicago White Sox at Pasadena, St. Louis Browns at San Bernardino, New York Giants at Phoenix, Ariz., and Cleveland Indians at Tucson, Ariz. He added:

"There is a possibility of one, and perhaps two, other big league teams changing their training sites to California."

He said the Bucs probably would be accompanied by the St. Louis Browns on their trip east from California, playing almost daily en route.

Mosquitoes take no chances of your blood clotting before they drink their fill. They inject their saliva into their victims to prevent coagulation.

Japan Hoping To Regain Okinawa

Also Expects The Kuriles To Be
Restored Through Coming
Peace Treaty

By HOWARD HANDLEMAN
(U. S. Staff Correspondent)

TOKYO, June 5.—Japan's new foreign minister, Hitoshi Ashida, expressed the hope today that his country will regain Okinawa and the Kuriles through the coming peace treaty.

In his maiden declaration of policy before the Diet (Parliament), Ashida pledged Japan not to seek restoration of her army and navy, but said Nippon wants what he termed an "adequate" police force equipped with "machine guns and machine rifles."

Ashida, outlining the foreign policy of Japan's new cabinet under Socialist Premier Tetsu Katayama, voiced the hope that Japan will be permitted to join the United Nations "immediately" after conclusion of the Allied-Japanese Peace Pact.

Ashida's reference to American-occupied Okinawa and the Russian-held Kuriles Archipelago was the first time a high-ranking Japanese government official has openly uttered a claim to recovery of territories Japan lost in the war.

"What's a good brand to wash Junior's mouth with?"

By LAWTON CARVER
(International News Service Staff Editor)

NEW YORK, June 4.—The hottest player in the red hottest National League pennant race is 34-year-old Johnny Mize who is doing more than anybody else to keep the New York Giants out in front and on the fly toward a high finish in the standings.

The big first baseman is enjoying one of the best seasons of a career that has sparked in more ways than one.

He's no speed demon, and never was, but if it is a base knock, an extra-baser, or a run driven home that you need, Bud, he most likely will give it to you. The Giants never have in recent seasons looked like contenders. I don't think they are headed for the championship even though they do continue to lead the league.

Mize Helps Out
But they have come up with some interesting baseball from time to time this season and generally in the thick of it has been Big John knocking another picket off yonder fence.

The Cincinnati Reds stopped him yesterday, but until then he had been something of a terror and still is hitting over .360, with leadership or a share in it for runs, runs batted in, home runs and various other offensive departments.

In homers he leads both circuits with 14, and by this time people are beginning to forget Bob Feller, Ted Williams and the players who were expected to be standouts this season.

DiMaggio Hitting
Well, perhaps not forget them, but at least keep peering in the general direction of Mize, wherever he may be at a given moment.

The other hot shot in baseball at the moment also draws his paychecks in New York, although with the Yankees, instead of the Giants. The name is Joe DiMaggio.

He has hit in 15 straight games and now has a season's average of .352, which places him within two points of George McQuinn's American League leadership for the Yankees, and DiMaggio, moreover, is slugging.

Great Outfielder
He had a merry time in that recent New York series with the Boston Red Sox and has maintained the pace since then to keep the Yankees up in the pennant tussle.

Aside from his hitting, he remains one of the great outfielders. He can go about as far as any center fielder of recent years to drag down a ball labeled for distant precincts. You probably read about his hitting on Sunday against the Cleveland Indians, who saw the DiMaggio of old hit a pair of homers, one with the sacks loaded, a double and a single to keep his latest hitting streak going.

Strangely, DiMaggio seems headed

for another ball club if you listen to the gossip around here. Perhaps he will finish out the year at such a pace that it will be impossible to get rid of him.

He's still a million dollar baby, bad foot or no bad foot and regardless of any difficulties he may be having with the front office.

Possibility Boy
Was Kidnaped Is
Being Considered

PHILIPSBURG, Pa., June 5.—

Possibility of kidnaping was considered today in the 60-day mystery surrounding the Easter Sunday disappearance of 4-year-old Jimmy Sencer of Loch Lomond, near Philippsburg.

Hundreds of searchers have combed every square yard of territory within miles of the child's home, without finding a trace of the child who apparently disappeared within a short distance of his back yard. Water holes in strip mines have been thoroughly dragged. Crows and other birds of carrion have been watched, but they led searchers only to the carcass of a beaver and a deer.

The little boy's father, William Sencer, and his grandfather, George Sencer, have searched daily with unflinching hope a trace of the child yet may be found.

But, so thorough has been the search, authorities believe the only solution may be kidnaping, perhaps by a frustrated parent who saw the lad toddling by a railroad track near his home.

It was by the railroad track the last trace of the child was found—a little red sweater he was wearing at the time of his disappearance.

Man Indicted In
Zelenople Holdup

BUTLER, June 5.—John Romito, 58, of 390 Bowery way, Pittsburgh, held in connection with an attempted holdup of a service station near Zelenople last April 1, was indicted by a Butler county grand jury today on a charge of burglary.

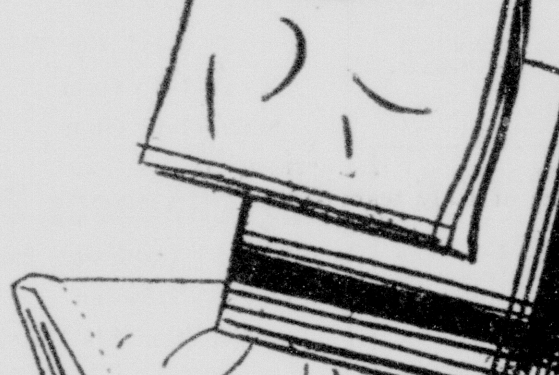

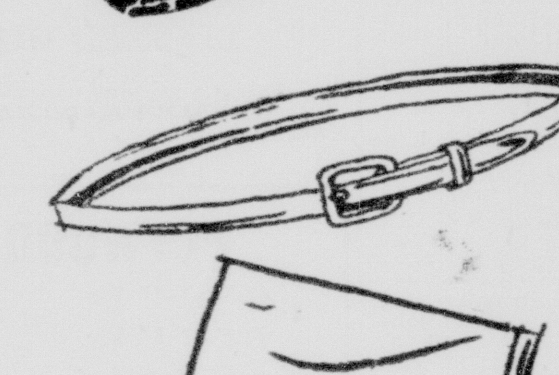

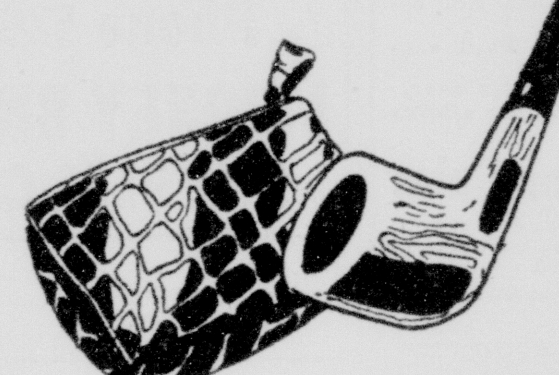

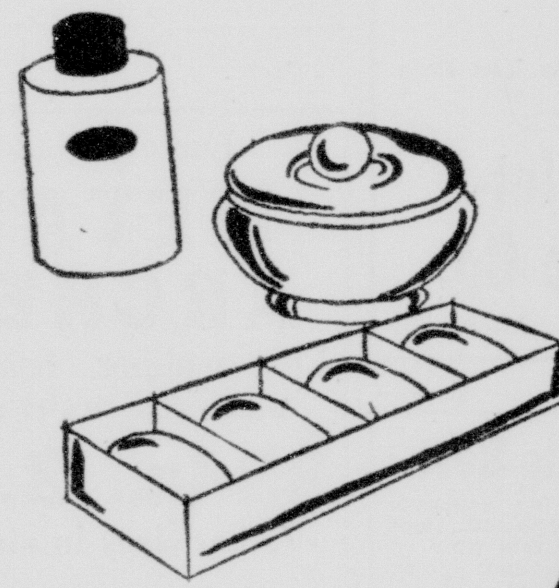

John E. Taylor, Troop D, state police, is the prosecutor.

Romito was picked up on the Zelenople-Beaver Falls road shortly after the attempted holdup, in which Romito's alleged accomplice, Donald T. Wells, 42, Avalon, was shot and killed by Arthur G. Ramsey, service station proprietor, who surprised Wells in his ill-fated attempt to crack the service station safe. Ramsey was wounded in the exchange of bullets.

Little things he uses every day and rarely gets around to replace. Like handkerchiefs, shave lotions, or a handsome wallet. Shop now for Dad's gift at The Winter Co., and remember to get the brand he knows is Esquire-advertised. Makes the gift all the more welcome.

Begin In Fall

NEW WILMINGTON, June 5.—Westminster college has acquired its first student Red Cross unit, with an enrollment of 28 charter members.

Purpose of the college chapter is to provide men and women students with an organization of their own to plan and carry out volunteer services under the supervision of the local chapter of the ARC.

The new unit will receive its charter at formal ceremonies in the fall. Most of the work will be concerned with the Deshon veterans hospital at Butler, it was announced.

Recover Body Of
Plane Victim

WARREN, Pa., June 5.—(INS)—The body of Dr. Robert Wheeler of Chicago, missing on a plane flight since May 25, today was in a Warren funeral home awaiting shipment to his home.

Wreckage of his private plane, in which he was en route from Rochester, N. Y., to Chicago, was located yesterday in the rugged, mountainous country near Queens, an isolated mountain community of Forest county, Pa. The body of the physician was recovered last night.

Pilot Jack Hill of Jamestown, N. Y., one of several pilots engaged in the search, was first to site the wreckage, strewn over a radius of 200 yards. The engine and propeller of the cabin plane had been driven into the fuselage by the impact of the crash.

MAY we invite you to visit this week's opening of our newly decorated galleries. It has taken us nearly a year to collect the items of furniture that are now on display, and you'll agree with us that it was well worth the effort. You'll see for the first time the new design trend, "American Informal", a clever blending of traditional and modern design features, fabrics and accessories. Three distinctive groupings: Living Room, Dining Room and Bedroom.

Claims Japanese May Soon Become Model Democracy

Civil Liberties Union Director Believes Nation Has Sound Basis For Change

By HOWARD HANDLEMAN
(U. S. Staff Correspondent)

TOKYO, June 5.—(INS)—Roger Baldwin, director of the American Civil Liberties Union, declared Wednesday that a two months' study of Japan has shown him "there is a sound basis for making Japan one of the most democratic countries in the world."

Baldwin asserted: "The joint efforts of General MacArthur's occupation headquarters and the Japanese government, with its new constitution, point the way clearly."

"But it is equally evident that the working out of practices on this basis will require continuous effort and struggle as it does in all democratic countries."

"I have found occupation policies in the field of democratic rights headed generally in the right direction. There are naturally, in such an unprecedented experiment in democracy, points for criticism and reform."

"It is evident that many practices which have been necessary in the past may now be relaxed, particularly in the field of censorship of communications and the regulation of public meetings."

Baldwin disclosed that he hoped to establish an association for international cooperation "with agencies recognized by the United Nations as consultants."

He also said that he expected to attempt to make arrangements in Washington to permit Japanese affiliation with international business, labor, agriculture, professional and women's organizations.

Compares Japan, Korea
Baldwin drew a comparison between Japan and Korea, calling the former nation one of "busy bees" and likening the latter to "a disorganized wasps nest." He told Allied newsmen in Tokyo:

"Korea is not only divided north and south, but it is left and right." He said that Koreans in the southern American-occupied part of the Asiatic nation want nationalization of their industry and land, such as exists in Russian-occupied North Korea.

But he added that other Soviet methods in North Korea evidently are unpopular because of the fact that two thousand refugees leave the Russian zone daily to enter the American zone south of the 38th latitudinal parallel.

Baldwin said these Korean refugees give several reasons for their flight from the Soviet zone with the chief reason being that the United States has brought more food into Korea than Russia has.

He declared that the refugees also complain of "Soviet oppression, civil conscription and intellectual oppression."

Filipino War Heroes Learn Fishing Method

BOSTON, June 5.—(INS)—A course in fishing, New England style, was being pursued today by 15 young Filipino war heroes, one a survivor of the Bataan death march. The group, composed entirely of college graduates, came to Boston to learn the techniques of North Atlantic fishing so they can help rehabilitate the wrecked fishing industry in their own country.

The two months course under veteran Boston fishermen, is sponsored by the United States Department of Interior, Fishing and Wildlife Service.

One of the first things the group was taught was how to rig nets. Today several men will go out to sea on the fishing trawler Challenge.

The trainees include Augusto A. Canonizado, a former officer in the U. S. Army, and Patricio Dinglasan, who survived the Bataan death march.
